## PLASTIC CASE

Ersson, founded in 1989, is one of the leading manufacturers of plastic case and inlay foam in Taiwan.

For over 35 years Ersson has never lost its core value to provide our clients a variety of tool cases and inlay foams with the best solution, quality and services. All products confirm to international standard.

Ersson is looking forward to establishing a long term and mutual beneficial partnership with you in the near future.

**GT Series**  
in 9 sizes

**SP Series**  
in 29 sizes

**TTC Series**  
in 7 sizes

**AMG Series**  
in 11 sizes

## PEVA & XPE Inlay Foam

After many years inlay foam tray development, Ersson has introduced many kinds of surfaces and colors to customers. Patented 3D carbon, metallic skin and shield skin are always popular in the market. To improve material application, PEVA is applied to tool foam tray. For better durability, it is compound of PE and EVA, which gain the benefits of toughness and softness from both materials characteristics.

## Product Overview

ANTEAM Orgsystem mainly consists of injection boxes in three different sizes and drawer chest. It consists of 50 and 100mm deep drawers and an upper case. Drawers can be stacked up as a drawer chest or mobile tool trolley. ANTEAM Orgsystem is specially designed for hand tools, power tools or even for the fastener application. It can be used in concert with trolley platform for easy movement. Durable, high quality ABS material provides a long service-life while shared same bottom platform provides easy stacking, storage, and transport to users. Create your own combinations to suit your work.

ANTEAM 078  
OD:456X372X115mm

AT 2 Drawer Tool chest  
OD:496X372X250mm

ANTEAM 120  
OD:456X372X155mm

AT 3 Drawer Tool chest  
OD:496X372X368mm

AT 11 Drawer Tower  
OD:655X490X988mm

ANTEAM 227  
OD:456X372X262mm

### FEATURES

- Impact Resistant Body
- Quick Adjust Dividers
- Self-Latching Drawers
- Metal Ball Bearing Drawer Slides
- Both Sides Pegboard
- Fully Opening Drawers
- Modular Connectivity with All ANTEAM Components

INSERT BOXES

### WORKSHOP TORCH

- a. 180-degree lighting, suitable for large-area lighting in car engine room, interior, bottom of car, etc.
- b. Specially used for the detection of automobile refrigerant fluorescent agent and counterfeit banknote inspection.
- c. Specially used in small spaces, such as brake pads, water tank inspection, car belts, door locks, etc.

#### Features:

1. Different light sources can be selected according to the working environment requirements.
2. Micro USB charging mode design
3. Double magnets at the bottom, super strong suction

#### Replace

Micro usb &  
行動電源充電模式

HANDILY INDUSTRIAL CO., LTD. was established in 2003. It is a manufacturer specializing in the manufacture of special auto repair tools. The products are suitable for the world's major brands of automobiles and are indispensable hand tools for automobile maintenance.

For example:

- Puller for Ribbed Drive Pully .
- Syringe Pump Removal Installation Tool .
- Engine Timing Kit .
- Engine Timing Tools .
- Camshaft Adjuster .
- Cummins Timing Tools .
- Fuel Injector Seal Remover Fitting Install Tool .
- Fuel Injector Removal / Installation Tool Kit .
- It has a place in the global supply of hand tools .

Puller For Ribbed Drive Pulleys

Clamps onto any ribbed pulley. Suitable for use on crankshafts, alternators, air conditioning units and water pumps.

Install/Remove Gear Belt Tool

Specifically designed for vehicles fitted with the chain driven 1.6/2.0 direct injection petrol engines. These engines are found in the late A, B, CLA, C and E class vehicles. Due to the type of construction used on these engines the camshaft needs to be clamped in place to allow dismantling and assemble of the cylinder head. Designed to allow removal and assembly of the camshafts

Timing Tool Set

# ELESHINE

Ele Shine Metal Industry Co., Ltd. was established in 1980 in Taiwan, is a professional computer CNC automatic lathe milling precision metal parts manufacturer. The main products used in computer components , bicycle parts , optoelectronic components , machine auto parts , gas parts, electronic parts, communication parts, bathroom hardware, machinery, hardware, pneumatic tools , sports equipment, buried screws and nuts , all kinds of connectors the high-precision parts manufacturing and processing . From high-speed lathes, automatic lathes, lathe tool path , and even take heart . CNC lathe and milling at once. Different products require visualization , and provide reliable solutions ! Machining brass , beryllium copper, phosphor bronze ,copper, stainless steel, free cutting steel, alloy steel , steel, aluminum , plastic and other materials , but also with the product as anodizing, polishing , vibration , magnetic resonance imaging , plating, Black , passivation , heat treatment, chromate , phosphate , coating and other surface treatment , processing capacity from OD 2 ~ 42 mm, length 600 mm of precision metal parts can be .

## Professional Metal Parts Manufacturer

Lathe processing / CNC lathe processing is an essential processing method for industrial components in recent years, and the quality of workpieces processed by lathes has become increasingly critical.

Ele Shine Metal Industrial Co., Ltd, is profoundly aware of this, using Japanese high-precision CNC lathes, inspection instruments to maintain the quality of workpieces, which is a star in the industry, and has been cooperating with many leading companies worldwide.

All kinds of materials can be processed, for instance, iron metal, copper metal, aluminum alloy, stainless steel etc. We consistently adhere to a creed "Make friends with quality".

E-mail: [ele.shine@msa.hinet.net](mailto:ele.shine@msa.hinet.net)

# ELESHINE

Ele Shine Metal Industries CNC lathe deep plowing business for over twenty years, take heart automatic lathe, automatic lathe tool path, CNC automatic lathe milling complex visual products of different products require order items throughout the steam locomotive, bicycles, computers , electronic, optical, mechanical and electrical, precision mechanical, plumbing, appliances, machinery, hardware, pneumatic tools, sports equipment ... and other I ndustries. Ele Shine Metal Industry's products have passed the ISO 9001:2015 international quality certification, and the introduction of ESPRIT CAM software applications specialized lathe design, integrate and simplify the process of production materials and processing, in order to ensure and enhance quality control system, Yixiang Metal Industry continue to buy high reliability testing instruments: such as projectors, high-resolution projectors, electronic height gauge, surface roughness tester and all kinds of microscopes and precision dental regulations and so on. Under the strict control from the material, tool applications, milling process, to the finished product, complete control, our professional quality control staff to focus on customer quality control of various precision parts to ensure the highest accuracy and quality

Our OEM Products covered by numerous industries, including bicycle parts, motorcycle parts, electronic parts, sanitary hardware parts, machinery parts, special screw cap, pneumatic parts. Processing of materials can be used with a wide range of customer needs: Contains copper, stainless steel, iron, plastic and aluminum. The O.D. range available is from Ø 2 mm to Ø 42mm and a maximum length of 600 mm

# RATCHET PIPE CUTTER

## RATCHET PIPE CUTTER U42MM HJ-14

Universal cutter for plastic tubes and hoses.  
 Quickly replace the blade. Easily replaceable Anvil.  
 Ratchet drive is more labor-saving. Tooth shape meshing longitudinal feed,  
 automatically lock when cutting safe and non-rebound.

ITEM NO.	HJ-14
DIMENSIONS	L240 x W110 x H40 MM
COLOR	Blue, Red, Yellow, Green, Orange
MATERIALS	Body plate : Steel(Steel Plate Cold Commercial), Chrome plating Blade : Carbon tool steel SK5, Chrome plating, Heat treating Anvil : Aluminum alloy Ratchet : Carbon tool steel SK5, Black oxide Handle : TPR, PP
APPLICATION	PVC pipe, plastic pipe, Water pipe, etc.
CUTTING RANGE	Maximum $\Phi$ 42MM

# 2-WAY ADJUSTABLE COILOVERS

Full-length vehicle height adjustment that uses a mono-tube construction for all lineups. A Nitrogen reservoir tank provides 32 stages of independent compression damping adjustment.

The 2-WAY 32-step damping adjustment allows for independent adjustment of both rebound and compression. This 32x32 step adjustments allows for 1,024 settings of fine tuning.

A Nitrogen reservoir tank helps increase the amount of sufficient damping force even at very low speeds and/or long distances.

Adopts aluminum upper mount, lock seat, bracket, etc. Achieving both high strength and light weight.

Nitrogen and Oil hybrid design allowing the Nitrogen to flow into the tube through the lower compression valve which controls the flow speed, helping achieve a smoother ride.

## TOOL INDUSTRY CO., LTD.

## ABOUT US

TQ Cutting Tool Industry CO.,LTD., strategically located in the heart of the **Taichung Industrial Zone, Taiwan**, we are a global corporation with two manufacturing bases and multiple companies across various countries. With 27 years of experience in industrial and professional-level cutting tool manufacturing, and as the holder of **21 authorized patents and 14 pending patents worldwide**, we are committed to ensuring the highest quality in every product we produce. As a professional manufacturer of tungsten carbide and high-speed steel rotary and cutting tools, our products span various fields, including step drills, rotary burrs, countersinks, and more. We provide a full range of services, including OEM, ODM, and OBM, to deliver high-quality, tailored solutions to meet the needs of our customers. Our core priorities are quality, R&D, and exceptional customer service.

#### EXHIBITORS TESTIMONIALS

**CHARNG SHUN TRADING CO., LTD.**  
Mr. Fang / Manager

This is the best exhibition I have seen since the epidemic. The result of this exhibition is very good. There are many people and the response is enthusiastic and we were also impressed by the organization and scale of the exhibition. We will continue to participate next year and look forward to the support of more buyers of new developments and old manufacturers.

**GOLDEN ROOT CO., LTD.**  
Edward Chen / Head of R&D

We have more customers from Japan and South Korea in this exhibition, and many of them turn to Taiwan from other regions to look for products. They also interested in our latest endoscope products, specially designed for pipeline and environmental inspection, and use AI technology to improve inspection efficiency. We will continue to participate in the exhibition next year and look forward to more exchange and cooperation with many international customers.

### EXHIBITORS TESTIMONIALS

**SIMHOPE INDUSTRIAL CO., LTD.**  
Mr. Florence Hsu / Project Management Specialist

We are highly satisfied with this year's show, particularly due to the significant increase in the number of buyers compared to previous years. The exhibition results have been truly impressive, and for the organizer (KAIGO), we are grateful for the opportunity to bring together such a large number of buyers. We are excited for the next edition and are eager to participate again.

**TAIWAN LINKIGI METAL CO., LTD.**  
Mr. Wei / Business Manager

We have participated in every edition of the exhibition since it started, except during the pandemic. Our company produces shaped wire and rods, and we ensure high-quality products and good after-sales service. We are satisfied with the number of visitors, especially the interest from overseas buyers. We look forward to participating again in the next edition.
