PEVA & XPE Inlay Foam

After many years inlay foam tray development, Ersson has introduced many kinds of surfaces and colors to customers. Patented 3D carbon, metallic skin and shield skin are always popular in the market. To improve material application, PEVA is applied to tool foam tray. For better durability, it is compound of PE and EVA, which gain the benefits of toughness and softness from both materials characteristics.

Product Overview

ANTEAM Orgsystem mainly consists of injection boxes in three different sizes and the new cuboid drawer. The cuboid drawer consists of two 50mm deep drawers and the upper case, it can be stacked up as a drawer chest or mobile tool trolley. ANTEAM Orgsystem is specially designed for hand tools, power tools or even for the fastener application. It can be used in concert with trolley platform for easy movement. Durable, high quality ABS material provides a long service-life while shared bottom platform provides easy stacking, storage, and transport to users. Create your own combinations to suit your work.

ANTEAM 078
OD:456X372X115mm

AT 2 Drawer Tool chest
OD:496X372X250mm

ANTEAM 120
OD:456X372X155mm

AT 3 Drawer Tool chest
OD:496X372X368mm

AT 11 Drawer Tower
OD:655X490X988mm

ANTEAM 227
OD:456X372X262mm

FEATURES:

- Impact Resistant Body
- Quick Adjust Dividers
- Self-Latching Drawers
- Metal Ball Bearing Drawer Slides
- Both Sides Pegboard
- Fully Opening Drawers
- Modular Connectivity with All ANTEAM Components

ELESHINE Professional Metal Parts Manufacturer

Ele Shine Metal Industry Co., Ltd. was established in 1980 in Taiwan, is a professional computer CNC automatic lathe milling precision metal parts manufacturer. The main products used in computer components , bicycle parts , optoelectronic components , machine auto parts , gas parts, electronic parts, communication parts, bathroom hardware, machinery, hardware, pneumatic tools , sports equipment, buried screws and nuts , all kinds of connectors the high-precision parts manufacturing and processing . From high-speed lathes, automatic lathes, lathe tool path , and even take heart . CNC lathe and milling at once. Different products require visualization , and provide reliable solutions ! Machining brass , beryllium copper, phosphor bronze ,copper,stainless steel, free cutting steel, alloy steel , steel, aluminum , plastic and other materials , but also with the product as anodizing, polishing , vibration , magnetic resonance imaging , plating, Black , passivation , heat treatment, chromate , phosphate , coating and other surface treatment , processing capacity from OD 2 ~ 42 mm, length 600 mm of precision metal parts can be .

Lathe processing / CNC lathe processing is an essential processing method for industrial components in recent years, and the quality of workpieces processed by lathes has become increasingly critical.

Ele Shine Metal Industrial Co., Ltd, is profoundly aware of this, using Japanese high-precision CNC lathes, inspection instruments to maintain the quality of workpieces, which is a star in the industry, and has been cooperating with many leading companies worldwide.

All kinds of materials can be processed, for instance, iron metal, copper metal, aluminum alloy, stainless steel etc. We consistently adhere to a creed "Make friends with quality".

<https://www.ele-shine.com.tw>

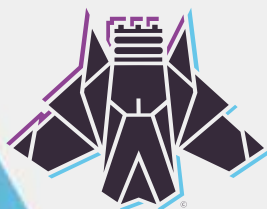

Ele Shine Metal Industries CNC lathe deep plowing business for over twenty years, take heart automatic lathe, automatic lathe tool path, CNC automatic lathe milling complex visual products of different products require order items throughout the steam locomotive, bicycles, computers , electronic, optical, mechanical and electrical, precision mechanical, plumbing, appliances, machinery, hardware, pneumatic tools, sports equipment ... and other I ndustries.Ele Shine Metal Industry's products have passed the ISO 9001:2015 international quality certification, and the introduction of ESPRIT CAM software applications specialized lathe design, integrate and simplify the process of production materials and processing, in order to ensure and enhance quality control system, Yixiang Metal Industry continue to buy high reliability testing instruments: such as projectors, high-resolution projectors, electronic height gauge, surface roughness tester and all kinds of microscopes and precision dental regulations and so on. Under the strict control from the material, tool applications, milling process, to the finished product, complete control, our professional quality control staff to focus on customer quality control of various precision parts to ensure the highest accuracy and quality

Our OEM Products covered by numerous industries, including bicycle parts, motorcycle parts, electronic parts, sanitary hardware parts, machinery parts, special screw cap, pneumatic parts. Processing of materials can be used with a wide range of customer needs: Contains copper, stainless steel, iron, plastic and aluminum. The O.D. range available is from Ø 2 mm to Ø 300mm and a maximum length of 800 mm

PROCESSING RANGE

Processing material Shape: Round bar, hexagon bar, seamless hollow rod, square bars
Or other shaped timber is depending on the product requirements.

Maximum machining diameter :

Round bars: Ø2.0mm ~ Ø300mm

Hexagon bars: Hex 2.0mm ~ Hex Max mm

Processing length :

Maximum processing length: 800mm

Machining accuracy :

Swiss Type CNC Lathe 0.01 mm

Automatic lathes 0.01 mm

Processing number :

Production: Set a minimum amount of a single product 500 pcs / batch

Sample: Production sample quantity 2 pcs
